

Wire EDM Operator Top Pay & Full Benefits!

Come join one of Minnesota's fastest-growing metal stamping companies with excellent opportunities for career development and a team culture of continuous improvement and respect.

Take command of Rotation's cutting-edge EDM machining workstations to manufacture precision components based on complex computerized designs. Utilizing advanced electrical discharge machining equipment, the EDM operator is responsible for machine setup and programming to produce some of the most intricate metal parts in the industry.

What You'll Do...

- Set up, program and operate Wire EDM machines
- Work from detailed part drawings and specifications to define and code tooling, fixturing, machine arrangements
- Provide tooling maintenance support
- Inspect finished product

What You'll Need...

- High School Diploma or GED
- 2 Year Machine Tool or Tool & Die Certificate preferred
- 5+ years EDM experience preferably in a Tool & Die environment
- 2+ years programming experience preferably with Esprit
