ROTATION ENGINEERING

*Celebrating 50 Years!*

**ROTATION ENGINEERING & MFG. CO.**

**METAL STAMPING • IN-HOUSE TOOLING  
LASER CUTTING • INNOVATIVE ENGINEERING  
VALUE BASED COMPANY WITH CORE VALUES**

**INNOVATIVE  
ENGINEERING & DESIGN**

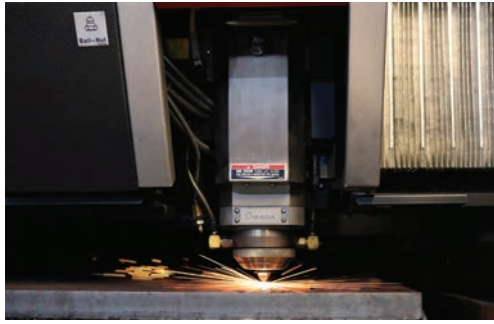

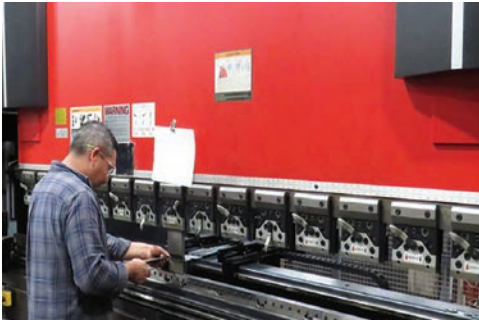

**A COMPLETE IN-HOUSE  
TOOLROOM**

**ISO 9001:2015 CERTIFIED  
QUALITY MANAGEMENT**

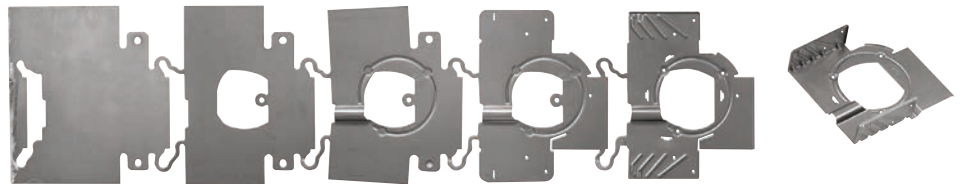

## METAL STAMPING AND FABRICATION

## MAJOR EQUIPMENT

- Amada 6000W Fiber Laser
- Press Brakes - capable of forming high-quality production runs from a couple of parts to a few thousand.
- 45-400 Ton Presses - capable of producing small intricate parts to large industrial components.

Rotation Engineering has a full range of state-of-the-art manufacturing equipment to produce precision metal stampings out of virtually any alloy.

At Rotation Engineering, we have the equipment, expertise, and decades of innovative experience to deliver unparalleled quality, capability, and flexibility. From custom metal stamping and tooling solutions to precision fabrication, our state-of-the-art facility offers streamlined manufacturing solutions utilizing our ISO 9001:2015 Certified Quality Management System.
